

Meet our Team

The Tierney PD Team consists entirely of licensed teachers with years of classroom experience. These team members have taught in classrooms from Pre-K through higher-ed, and customers often notice they are “different” than your typical technology trainer. The PD team takes pride in their classroom experience, and believe this makes them more effective as a facilitator and trainer.

Our team spends time together each month to learn about emerging technologies, share resources, update training materials, and develop our training skills. They work hard to bring our customers the best professional development experiences, and are always looking for ways to grow and improve their own teaching practice.

We hope you have the opportunity to work with one of our amazing PD team members. They are ready to help your teachers integrate technology solutions that will positively impact student learning and growth!

Stacey Kosch

- After 7 years of teaching 5th grade in South Carolina and Minnesota, I joined the Tierney PD team in 2011.
- I love that each day in my role at Tierney brings new challenges and opportunities to share tools that support teachers.
- My free time is spent chasing after my three children, running with friends, or catching up on missed episodes of reality television.

Nicole Acevedo

- Prior to joining the PD team at Tierney, I was a 9th and 10th grade English teacher for 13 years in urban schools.
- I love the power of technology and how it can transform a lesson. Seeing teachers use that power in their own unique way is very rewarding.
- I recently moved to Chicago so during my free time you can find me exploring the city and all it has to offer.

Cait Heinz

- I have been an educator since 2009 working as a high school Spanish teacher and later in my career, working as an assistant principal.
- I joined Tierney in 2020 and am energized by being able to help teachers learn more about how to integrate technology into their curriculum.
- In my free time I enjoy exploring parks with my dog and spending time with family and friends.

Andrew Stokes

- I have been working in Education since 2011, teaching in both elementary and middle school, as well as coaching high school baseball.
- I enjoy learning about new products and how they can best be implemented into different environments.
- In my free time I enjoy fishing, playing guitar, and spending time with family.

Gina Keenan

- I have been working in K-12 education since 2003 as an English Language teacher and Technology Integration Specialist.
- I joined the Tierney team in 2018 and enjoy bringing new and innovative technology to teachers to foster that same excitement in their classrooms.
- I spend my free time traveling, reading and going to MN sporting events.
