

BEHAVIOR EXPERTS AT WORK

The Metiss Group helps organizations and leaders with key hiring, EOS® Integrator recruitment services, leadership development, and culture alignment. We have helped organizations nationwide for over 25 years. Our services include the following:

GETTING THE RIGHT PEOPLE IN THE RIGHT SEATS.

Thousands of companies have relied on our proven selection process to find the talent that matches both their unique needs and their company culture. We take the guesswork and emotion out of the recruitment process by identifying crucial skills, culture needs and applying a data-driven approach to measure and compare them.

We use a series of assessments, ranging from psychology surveys and cognitive tests to phone and in-person interviews. After collecting the data points on your candidates, we guide your hiring manager through our findings and make our recommendations.

SELECTION ACCELERATED PROCESS

In order to help organizations find the right talent, we must first understand why someone is performing well in that role. By using behavioral assessments, we understand what makes up your high performers. With the information gathered, we are able to identify their patterns and consistencies. Using this data, we identify key areas to focus recruiting efforts. With behavior based interview questions, a profile to measure against, and an efficient hiring process, hiring managers are able to bring high quality talent to their organizations quickly.
