

# Better Buildings Better Tomorrow

## Our Vision

Better buildings for a better tomorrow.

---

## Our Mission

To discover and release hidden potential within the built environment.

---

## Our Purpose

We believe access to better buildings can help people to reach their full potential and achieve their dreams.

---

## Our Goal

To help clients to better understand their risks, opportunities and priorities so they can make more informed decisions about their building assets.

---

# Our Strategy

---

**Collect:**

Quality data in a timely, cost-effective way.

**Provide:**

Innovative ways to visualise, analyse, and report information.

**Deliver:**

Partnership models that provide clients with more certainty, meaning and value.

## We work with people who:

---

Share our vision and have the resources and commitment to help achieve it.

Believe that better is possible when decisions are made with purpose, clarity and confidence.

Understand the importance of creating future value in our industry and society, starting today.

# Quality data in a **time** and **cost-effective** way.

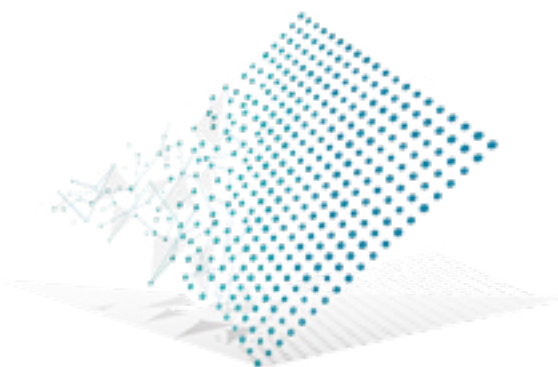

- Asset registers for enhanced asset management, financial, M&A and procurement activity performance
- Large scale facility portfolio asset condition, compliance and functional suitability assessment programs for asset estate lifecycle management and strategic planning
- Facility performance audits for maintenance investment, leasing agreement and disposal options decision making
- Drone-based asset data capture for time, cost and safety risk reduction

# Innovative ways to **visualise, analyse,** and **report** information:

Immersive facility walk-through and fly-around 3D digital models for more efficient and engaging access to information.

AI enabled tools for enhanced asset defect detection, visualisation, reporting and issues management.

Data analytics, interactive decision making and reporting dashboards.

# Partnership models that provide our clients with more **certainty, meaning and value.**

---

**Macuport © is an integrated SaaS technology platform developed by Macutex consolidating and displaying all relevant asset information into an interactive user experience.**

Our Service Package comprises innovative technology platforms, ongoing data collection, professional development and advisory support, providing a single solution package accessed via subscription.

Our collaborative campaigns and thought leadership initiatives with clients unlock the potential within the built environment and create better buildings for a better tomorrow.

# 2006

Macutex, an Australian owned and operated industry award winning company, has been providing strategic and operational solutions to the facility and asset management industry since 2006.

# 100

Macutex has worked with more than 100 organisations across all three levels of government and the private sector in all states and territories, from major cities to the most remote parts of Australia.

# Unlocking potential within.
