A BETTER SLURRY PUMP EXPERIENCE

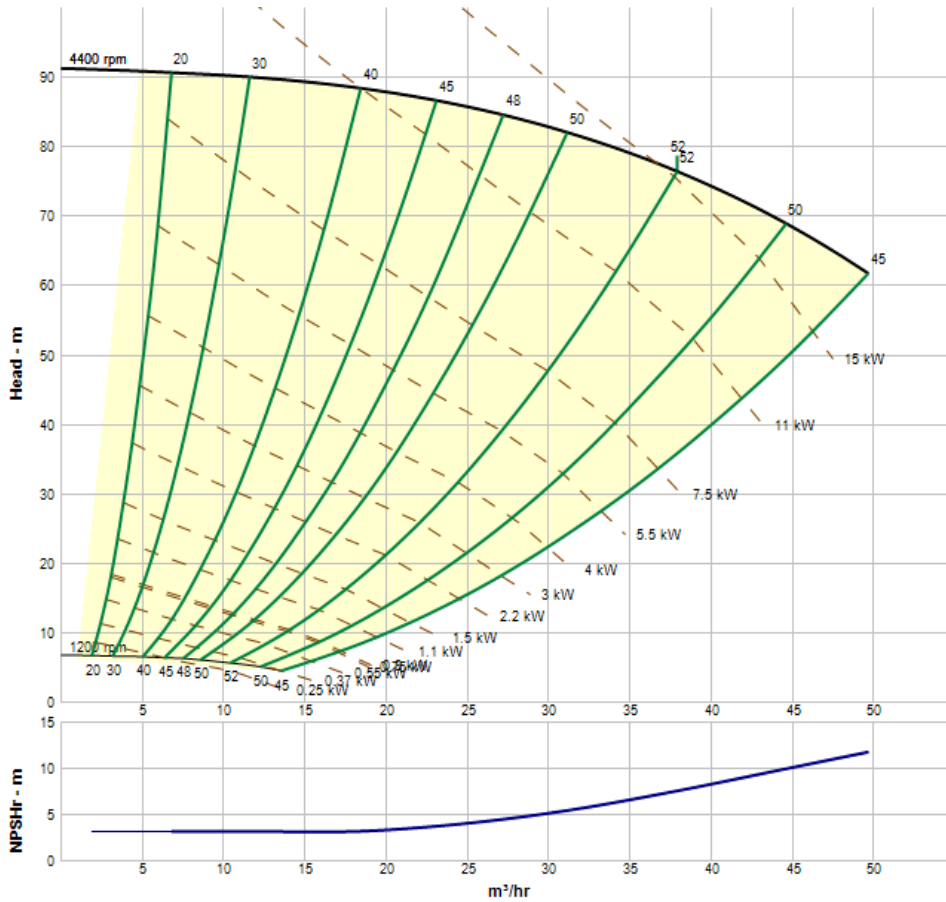

slurrypro.com

SSI.5x1-200005

SlurryPro Silver Series SSI.5x1-200005 centrifugal slurry pump. Featuring a standard expeller, heavy duty SKF bearing, high chrome impeller, high chrome liner and a maximum motor power of 15kW.

Performance

Specification

Suction	38mm (1.5")
Discharge	25mm (1")
Maximum RPM	4400
Sealing System	Expeller Seal
Impeller Material	High Chrome
Liner Material	High Chrome
Throat Bush	n/a
Max Motor Power	15kW
Weight Bare Shaft Pump	88kg

Mounting Options

Pumps can have motors mounted in the following options:

- Overhead mounted
- Side mounted
- Long coupled

About SlurryPro

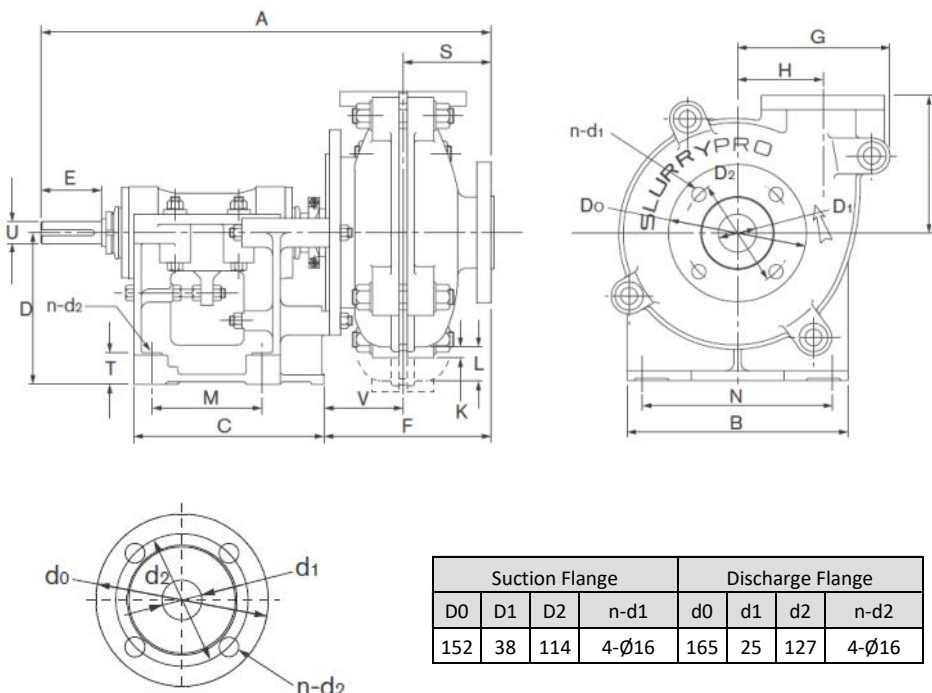

SlurryPro originated from a firm belief that your slurry pump experience could and should be better. In response to industry feedback and frustration with service and response times, SlurryPro Pumps has introduced a customer-centric focus and revolutionized the end-user experience.

The core management team bring years of experience from the Australian and South American mining industry. This tough and unforgiving environment was the perfect birth place for a range of horizontal and vertical centrifugal slurry pumps focusing on superior wear life and reduced lifetime costs. We focus on the vital need to reduce downtime in our key markets of mining, chemicals and mineral processing.

We understand that reducing downtime relies on rapid and cost effective parts availability. With this in mind, we have invested heavily in stock within our distribution companies, leading to the fastest quoting and delivery times in the industry.

In short, if you're looking for a better slurry pump experience, including superior wear life, reduced lifetime cost and ease of ongoing maintenance there is quite simply no alternative to SlurryPro.
