SOLUTION OVERVIEW

DMI FLEET MANAGEMENT AI

Powered by DMI IoT Connected Cloud

Safety and Security

AI-based Driver Behavior
AI-based Driver Coaching
Emergency Alerts

Maintenance

Vehicle Diagnostics
Predictive Maintenance

Notification and Alerts

Off hours use
Speeding
Idling

Location Based Services

Vehicle Tracking
Geofencing
Route Optimization

Compliance & Reporting

Seat Belt Use
Driver Scorecard
ELD Data

Predictive Analytics

Fleet Performance
Informed Decisions
Finances

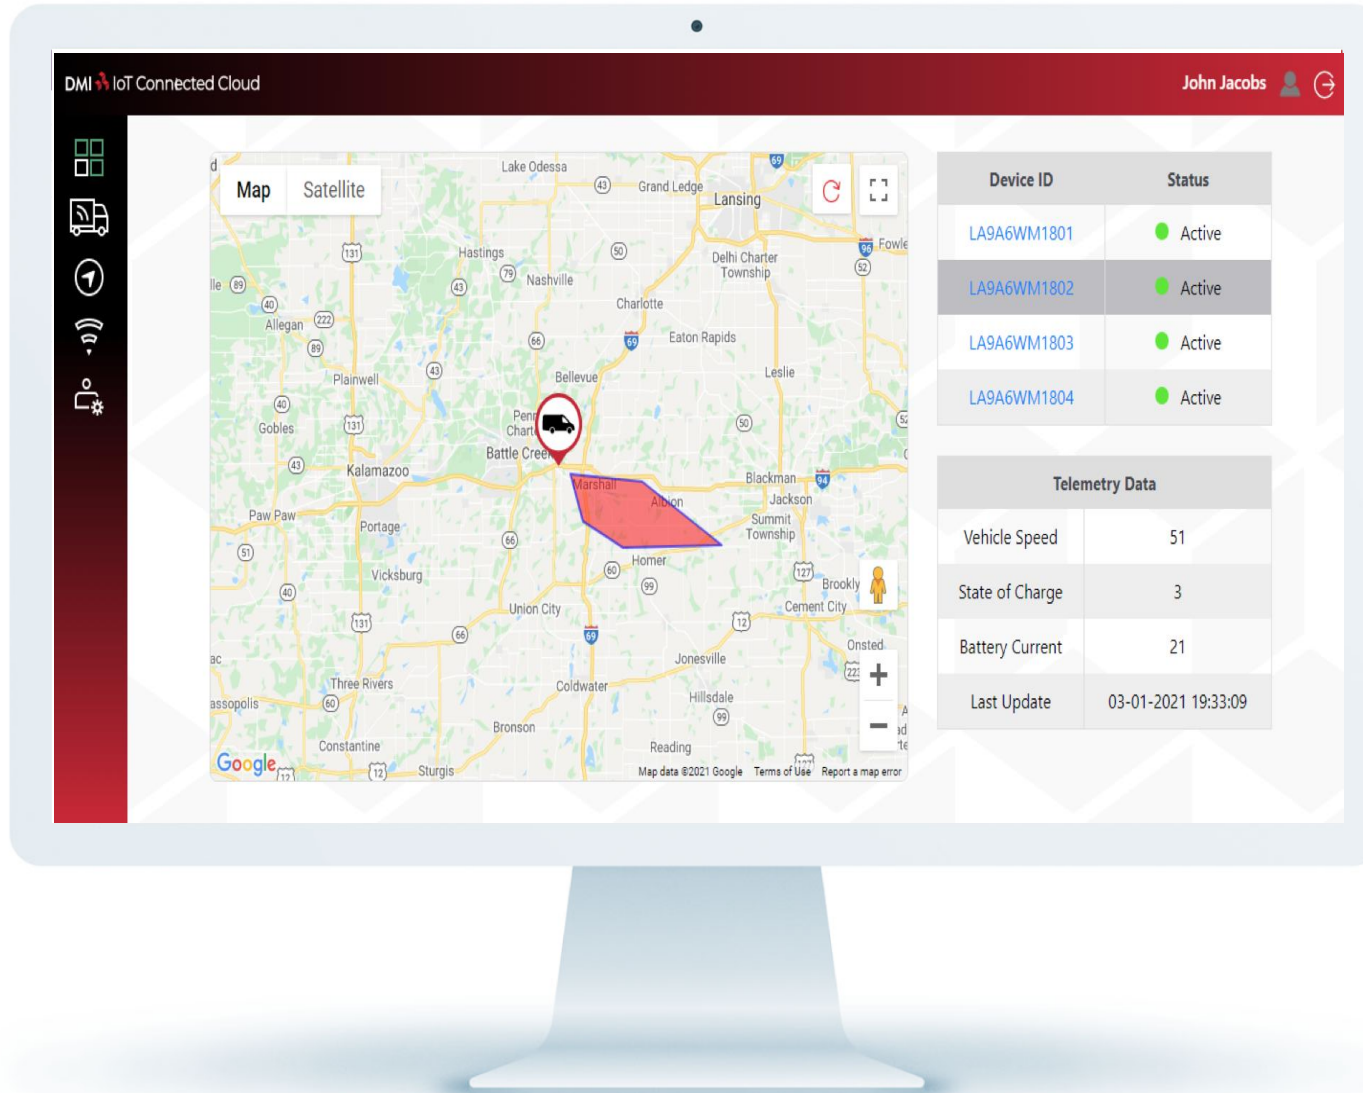

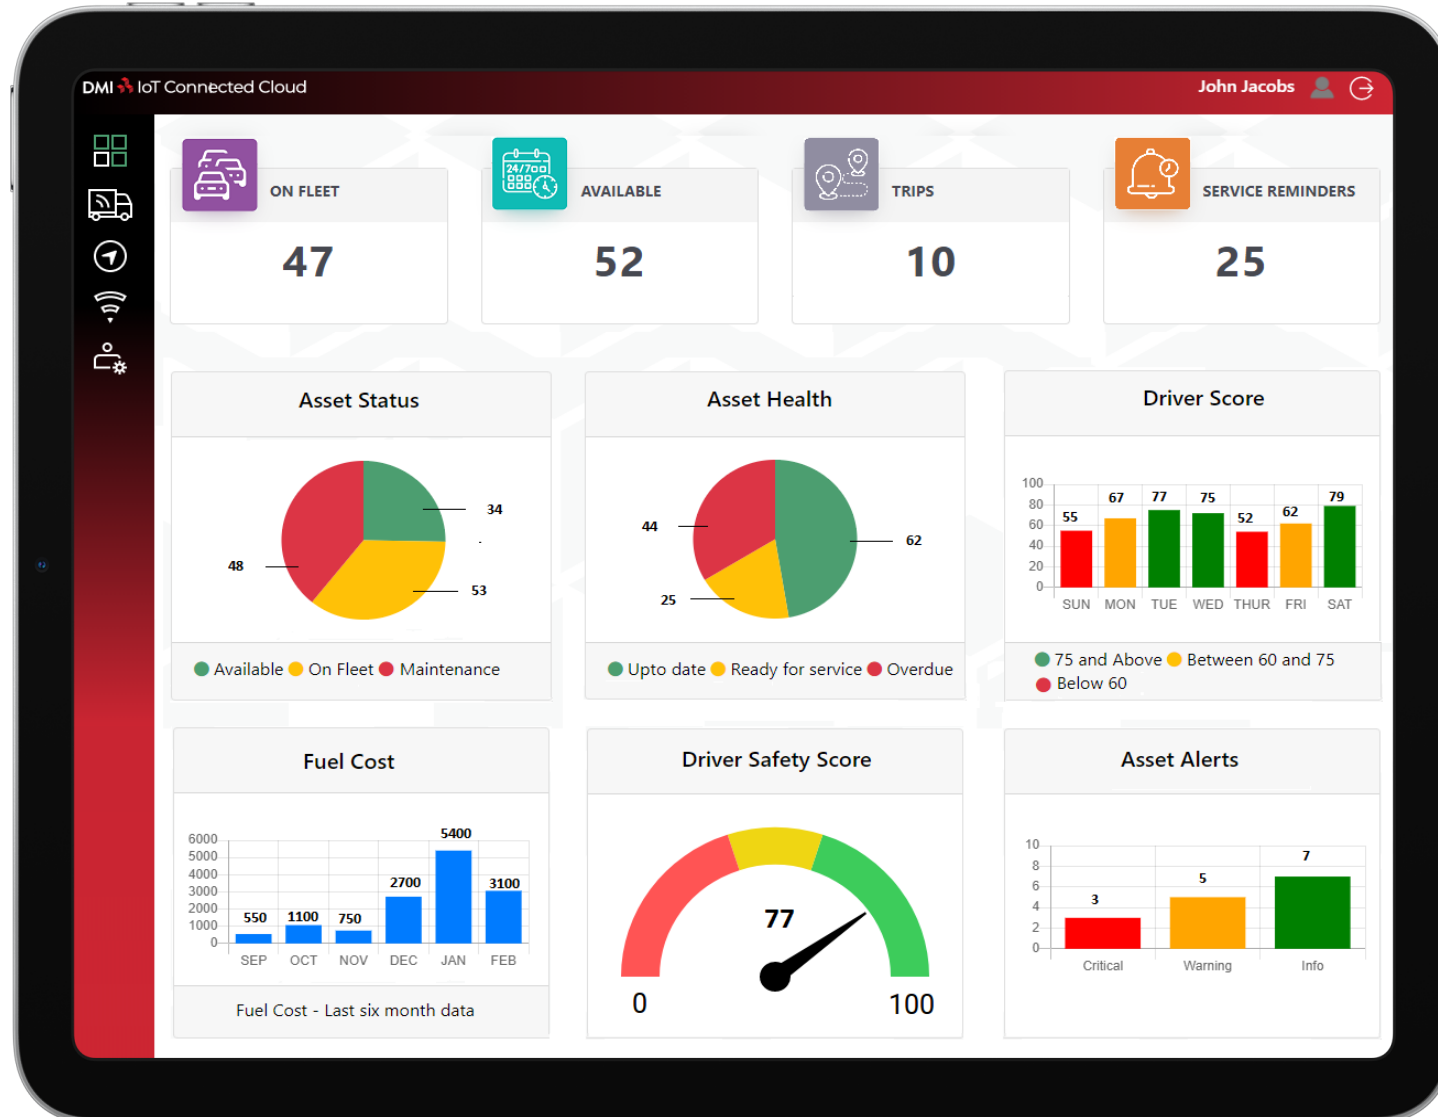

User Configurable Live Reporting

1. Fleet status and performance
2. Driver analysis
3. Operating and maintenance cost analysis
4. Alerts and notifications
5. Predictive analytics

Track and act on vehicle location in virtual boundaries

1. Geo-fencing
2. Curfew alert
3. Route Deviation Analysis
4. Emergency re-routing

User Configurable Live Reporting

1. Fleet status and performance
2. Driver analysis
3. Operating and maintenance cost analysis
4. Alerts and notifications
5. Predictive analytics

FLEET TRACKING & MANAGEMENT

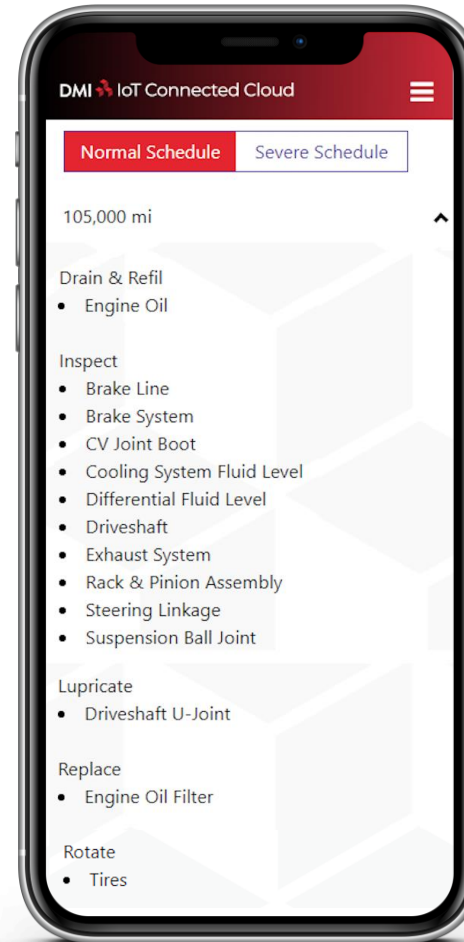

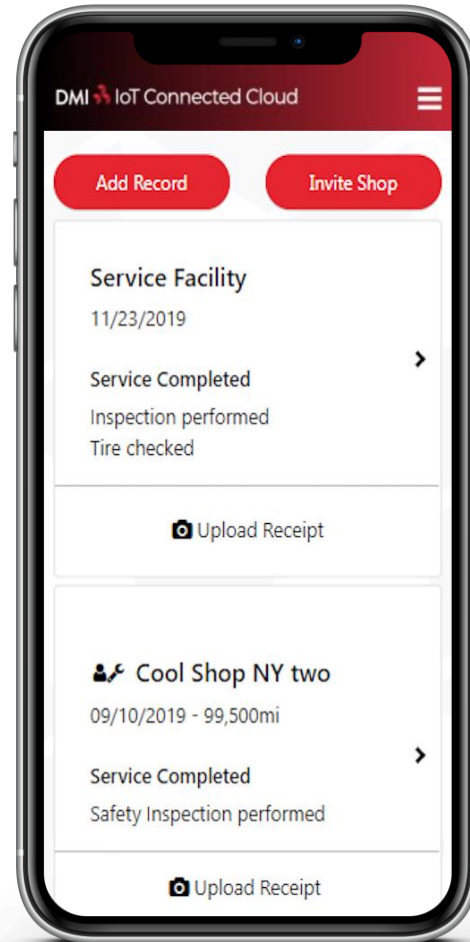

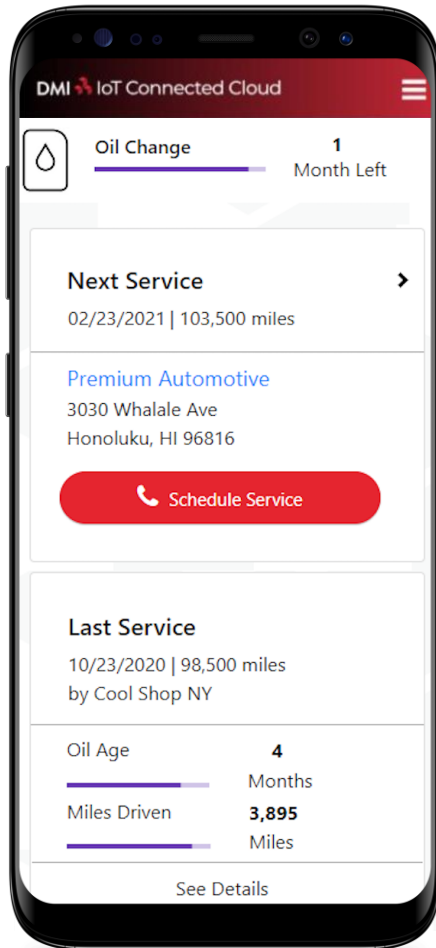

DMI FLEET MANAGEMENT AI

Powered by DMI IoT Connected Cloud

Track and act on vehicle location in virtual boundaries

1. Geo-fencing
2. Curfew alert
3. Route Deviation Analysis
4. Emergency re-routing

Driver Self Service Reminders

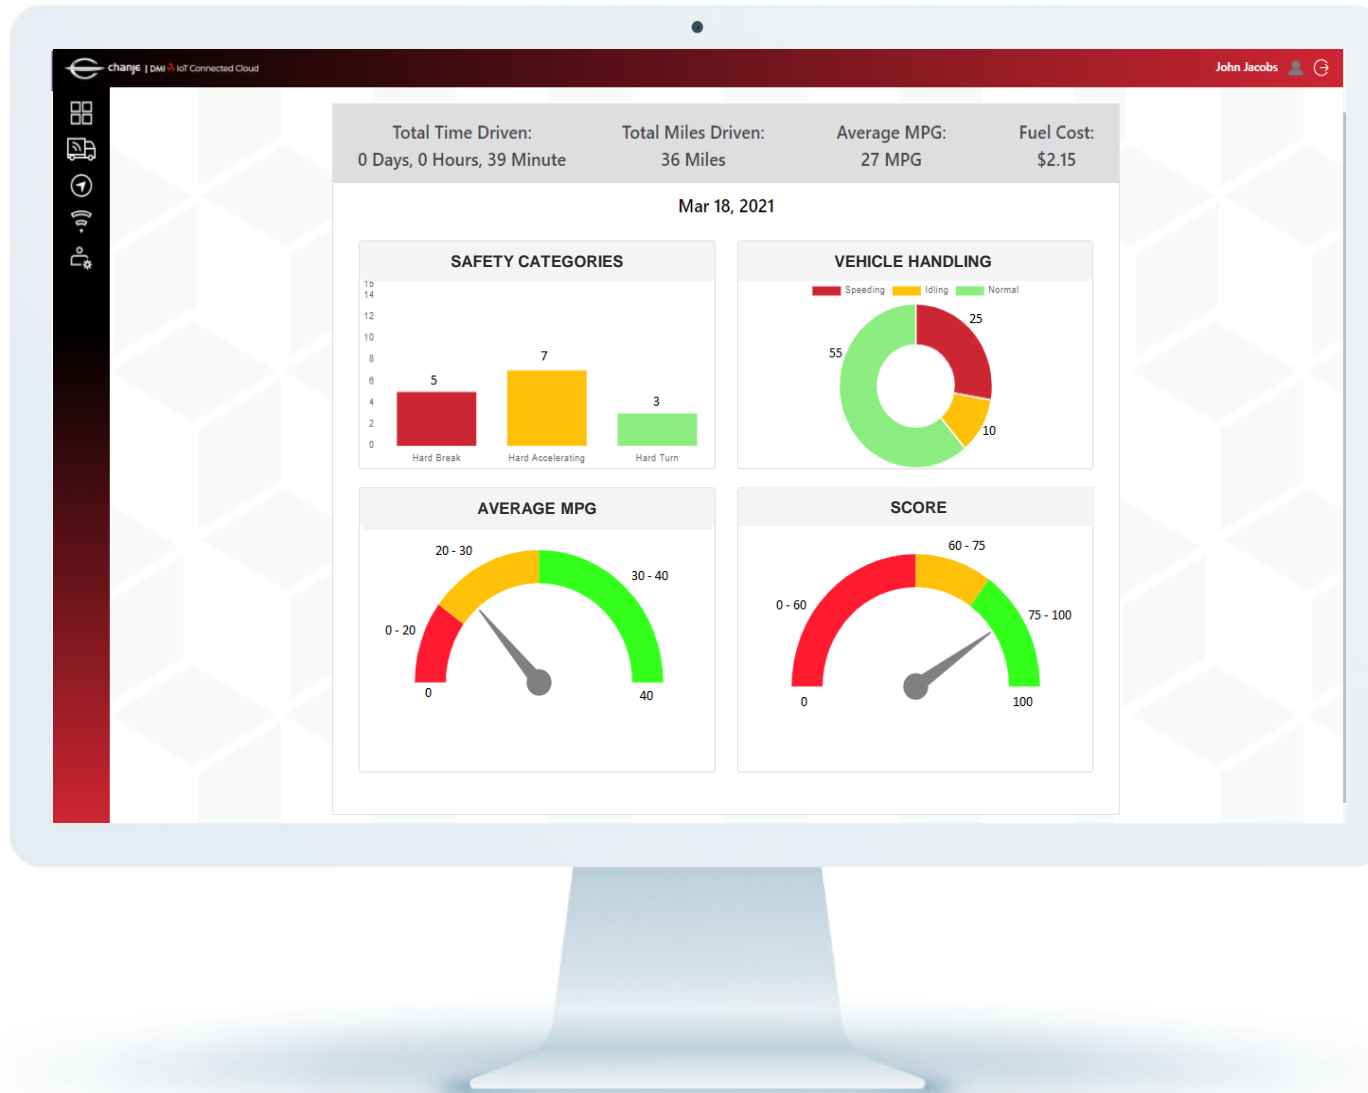

1. Odometer / Time based “service due” alerts are generated for Drivers and Fleet Managers
2. Diagnostic trouble code-based maintenance

Service Center Tools

1. Mobile Apps for Technicians for Vehicle Inspection Checklist (Fluid Leaks, Brakes, Steering, Suspension, Chassis, Tire wear, Batteries, etc.)
2. Identify Damages (using AI/ML tools)
3. Get Service history
4. Order parts / replacements etc.

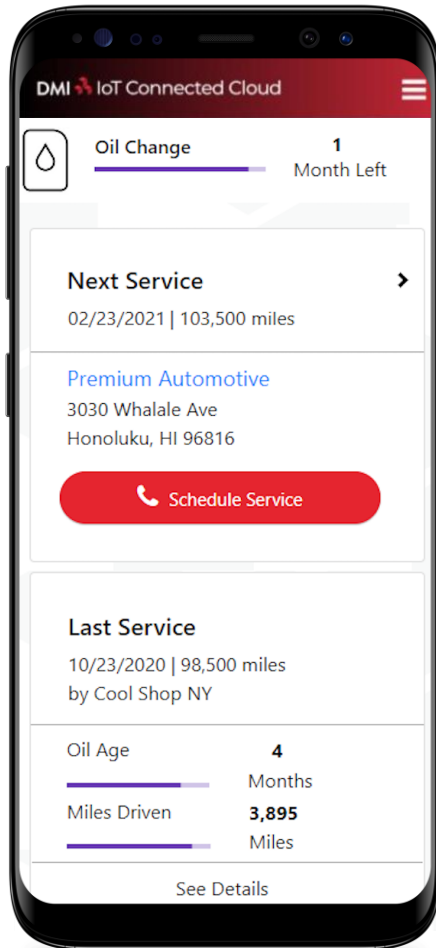

RISK ANALYTICS & DRIVER SCORECARD DMI FLEET MANAGEMENT AI

Powered by DMI IoT Connected Cloud

Driver Behavior Analysis

1. Breaking, Speed, and Acceleration
2. Off hours usage
3. Idling time
4. Seat Belt Compliance
5. Route Adherence and Trip Analysis
