

Cloud Services and Migrations

Cloud computing benefits are endless; it's no surprise that businesses globally are migrating to the Cloud. With more employees than ever now working flexibly from different locations, having a reliable cloud infrastructure is essential. Whatever your cloud needs are, we have the solution for you.

We handle IT so you can handle it.

What are the benefits of Cloud Services and Migrations with Novem IT?

What do we offer?

Cloud-solutions for business of all sizes

If you require a fully integrated desktop environment or a simple cloud application transfer, Novem IT can help, no matter your business's size.

Whether it is an email migration to Microsoft 365 or removing your entire on-premises servers and moving to Azure and Windows Virtual Desktop, we can get the job done.

On-Premises to Cloud Migrations

Novem IT can make your migration to the Cloud seamless. Our experts have assisted many of their journey to the Cloud. Our experience, consultancy services, partnerships and Data Centre Presence will ensure that we can build your cloud-based IT platform to your requirements.

Market-leading cloud solutions

We work closely with third-party cloud providers, including industry leaders Microsoft for Azure and Windows Virtual Desktop. Whether it's a public, private or hybrid cloud you desire, we provide the right cloud solutions for you.

Why work with Novem IT?

- **When you call, we pick up**

A friendly, approachable person will always greet you. We are a reliable team who will support your cloud environment needs no matter the challenge.

- **Our team are Microsoft and accredited**

Novem IT are a team of certified professionals who know how to handle your entire cloud environment. You can trust that, with us, your cloud journey will be seamless.

- **Our experience is second to none**

This isn't our first rodeo; we have been helping businesses with their journey to the Cloud for years and managing their cloud environment to ensure long-term cloud success.

- **Cloud solutions to meet your business needs**

Your business is unique, and so are we. We will treat your cloud environment with the attention it needs, so it meets your business requirements and helps to alleviate your IT Problems.

- **A reliable and dedicated team**

We know that moving to the Cloud can be daunting and complex. But we can help you every step of the way to ensure you get the most out of your cloud solutions.

How we have helped our customers

Our team delivered a dedicated, private cloud solution hosted on Novem Infrastructure. This provided AV Danzer's distributed workforce secure access to all business applications from any location on any device.

We supplied a remote access platform that is available to field-based staff 24 / 7 365 days a year.

Novem IT helped with a full, seamless migration from Google Mail to Microsoft 365 creating vastly improved business productivity without large CapEx expenditure.

Our partners

Novem IT are Microsoft Silver Partners and we work with Microsoft to ensure our customers have access to the best service possible; they are industry-leaders after all.

Microsoft
Partner

Whether you need help with cloud migration or support with your cloud environment, we can help.
