

## VACANCY DETAILS

<b>Department: GW Machining Limited</b>	<b>Hours: 37.5 hours per week on a flexible shift working basis in accordance with the needs of the business</b>
<b>Job Title: Inspector</b>	<b>Job Ref: GW676</b>
<b>Place of Work: Bridgnorth</b>	
<p>GW Machining are seeking Inspectors. The roles will be employed on a flexible shift working basis in accordance with the needs of the business and it is anticipated the successful applicants will work predominantly on the afternoon and night shifts.</p> <p>The Postholder will be responsible for conducting various product feature checks using a wide range of measurement equipment as appropriate, reviewing, and assessing in-process check records as completed by shop floor staff and conducting visual inspection of completed products prior to dispatch. Duties also include analysing CMM reports, identifying and requisitioning appropriate inspection tools to be issued to Production Operators to facilitate the checking of parts and features of parts on the shop floor and assisting Production Operators with the checking of machined parts both in inspection and on the shop floor.</p> <p>The successful candidate will have an understanding of measurement techniques including CMM, Shadow Graph and all generally used engineering inspection tools, a good understanding of customer and engineering requirements and will demonstrate a high level of accuracy and attention to detail. Relevant industry experience of machined parts inspection employing all commonly used engineering inspection equipment is required for this role, as are a knowledge of health and safety legislation as it applies to the role, successful completion of a RoSPA certified manual handling training course (or equivalent qualification) and completion of Health, Safety &amp; Environmental awareness training.</p>
