

VACANCY DETAILS

Department: GW Limited	Hours: 37 hours per week
Job Title: Trainee Project Engineer	Job Ref: GW692
Place of Work: Bridgnorth	
JOB DETAILS <p>The Postholder's duties will include assisting with the adherence to specification of projects/products through the Company's New Product Introduction (NPI) process, and communicating any issues, constraints, or divergence from the project plan to internal key stakeholders. The Postholder will use analytical methods to analyse projects, from an engineering perspective to put both preventive and reactive solutions in place to allow the manufacturing process to achieve the customer specifications. This role includes the possibility of overseas travel.</p> <p>Successful candidates will hold a recognised formal engineering qualification or will have demonstrable significant experience in relevant fields. They will be proficient in using Microsoft Office and will have experience of using ISO quality standards. An understanding of engineering, tooling, casting, and machining is desirable for this role, as is experience of business/ account development. Candidates must hold a current, valid driving licence.</p>
