

## TWO SUCCESSFUL PREMIERES FOR ROBATECH

*A lot of praise for Robatech at interzum 2019. The company booth and the new branding convince on international stage.*

For the first time, the leading supplier of automatic and manual hot-melt solutions in the mattress industry presented an own booth and its new branding at interzum in Cologne from May 21–24, 2019. The fresh and competent presentation impressed both the trade fair visitors and the international press.

With over 74,000 visitors from 152 countries and 1,800 exhibitors, interzum is the world's leading trade fair for furniture production and interior design. In the product area of machines and solutions for mattress production, Robatech demonstrated adhesive application technologies for pocket springs and final mattress assembly.

The own booth, the new appearance as well as the sustainability and efficiency of the hot-melt application systems met with great interest from furniture manufacturers, supplier industries, and the international trade press. Robatech solutions could be seen live at the own booth and also integrated in complete systems at numerous booths of machine and adhesive manufacturers. With its innovative solutions and a global sales and service network, Robatech has proven to be a reliable partner and supplier of adhesive application solutions in a booming mattress manufacturing industry.

A lot of praise for Robatech at interzum 2019.

## ROBATECH

Headquartered in Muri, Switzerland, the Robatech Group is a leading global manufacturer of innovative and sustainable adhesive application solutions for industrial hot melt and cold glue applications. Robatech has produced and supplied high-quality controls, application heads, melting and dosing systems since 1975. Robatech is represented in 80 countries. Robatech representatives advise and support customers in a wide variety of industries around all questions and concerns regarding adhesive application and optimization of bonding processes.
