

## Wilson Health

### Database of Most Common Shoppable Services

A 'shoppable' service includes tests or procedures you can schedule ahead of time, usually on an outpatient basis. The link below includes our standard charges for up to 300 shoppable services. Each is grouped with ancillary charges that are customarily provided by the hospital in conjunction with the shoppable service.

In accordance with federal requirements, each 'shoppable service' is displayed with the following standard charges:

- **Discounted cash price:** The charge that applies to an individual who pays cash (or cash equivalent) for a hospital item or service.
- **Minimum negotiated charge:** The lowest charge that we have negotiated with all third-party payers for an item or service.
- **Maximum negotiated charge:** The highest charge that we have negotiated with all third-party payers for an item or service.
- **Payer-specific negotiated charges:** The charge that we have negotiated with a specific third-party payer for an item or service.

Note: The site does not include rates for traditional Medicare or traditional Medicaid.

Per Federal requirements, the prices posted herein contain the estimated allowable amounts under particular payer plans, and do not reflect the projected amount due from the patient.
