

Step Keystock – Zinc-Plated Steel

Step keystock is used on couplings, gears, sheaves, sprockets, and pulleys. It is sold in two configurations: Type 1 is designed for repair of damaged shafts while Type 2 is used for keyways, gears, pulleys, and shafts. Our keystock is made of C1018 Steel and zinc plated for corrosion resistance. The size is marked on each piece for easy identification.

Lead time for these items may exceed 24 hours. Please call to verify stock levels.

Step Keystock – Zinc-Plated Steel – Dimensions
