

# Mass Notification System

When the message is urgent, ensure it's received by your stakeholders with SchoolInfo.

SchoolInfo's Mass Notification Technology is an integral part of the mobile-first communication strategy that our clients know and love. Whether it's an emergency, school closure, or any other important communication needs, our mass notification system ensures administrators' messages reach their students, parents, and teachers.

## Why School Leaders Love Our Mass Notification System:

- **Custom contact lists:**

Send messages to just the right group. Perfect for teams, grade levels, clubs, and more.

- **Simplify administrative tasks:**

Create a time-saving system to call home about absent students. All it takes is a few clicks.

- **Diverse school district:**

Send messages in over 20 languages without time-consuming translation.

# So, How Does It Work?

Easy database integration helps you add unlimited contacts (phone, email) for students, faculty, and staff.

Quickly create groups and subgroups. You can have a group for each sports team, grade level, club, and even smaller groups within those if you'd like.

Our user-friendly portal lets you customize and create your message. Select text message, email, voicemail (or all three). Type your message, finalize, and send!

Our technology reaches everyone, everywhere. The system dials and speaks to people on cell phones and home phones, voicemails and answering machines. At the same time, we'll burst out your SMS texts and emails to everyone's devices.

## Easy integration with popular Student Information Systems (SIS) such as:

- PowerSchool
- Skyward
- Infinite Campus
- Blackbaud
