

SchoolInfo is iKeepSafe Certified

Keeping data safe and secure is an important aspect of any technology company. Of course, this is especially paramount of a technology company that works within the public and private education sectors. As SchoolInfo works primarily with districts and schools, it is also important that we comply with State and Federal guidelines. iKeepSafe certifies technology used by children in educational settings with qualified experts. SchoolInfo takes pride in staying up to date with the latest certifications to improve transparency around student data privacy.

To verify we are meeting the needs of our customers, SchoolInfo is iKeepSafe Certified. This includes the following certifications:
