DRILL-DOWN REPORTS

- ▶ Day-by-day trends and breakdown by job type
- ▶ Cross-employee comparisons
- ▶ Labor operation level exports

GROSS PROFIT BY EMPLOYEE

Transparent. Live. Powerful.

“Weave Workforce has helped us automate access to our service department data and unlock the data to strengthen our operations in multiple dimensions. The software provides visualizations and analyses that are enabling us to see where we can improve, down to a technician level of detail. This is a powerful tool for increasing service department productivity.”

JP Lammers, General Manager
Germain Automotive Group Ann Arbor
