## Accounts Payable Automation

Ditch the checks and simplify vendor payables. Our Accounts Payable (AP) Automation platform eliminates the time-consuming and costly manual paper processes that are typically used for outbound payments. On day one, we can automate 100% of your payments to vendors and suppliers, regardless of their payment acceptance capabilities.

From collecting vendor payment information to paying them using virtual cards or ACH, we handle all aspects of your vendor enablement and payables processes so you can focus on your business.

**Earn valuable rebates from virtual card spend.**

## Solutions for Exceptional Experiences

Enhance the entire payment experience with solutions that add more value to processing. Our goal is to be your single source for convenient, fast, and secure payment management for customers and vendors.

- Realtime reporting available within your management platform
- Instant Funding for faster loan disbursements
- Omni-channel print and digital messaging options
- Easy-to-send text reminders
- PCI-compliant platform for secure processing
- Always available U.S.-based customer service
