# Sage 100 Enhancements

## Integrated Payment Processing with Multi-currency Helps You Go Global

### Integrated and Flexible

Work seamlessly within the business systems you already use to avoid manual entry and reduce error with an all-in-one, integrated payment processing solution.

- Tokenized credit card data simplifies PCI compliance
- Daily, automatic batch reporting
- Level 3 processing
- EMV chip functionality
- Multi-currency capability
- Free ClickToPay integrated online payment portal
- ACH processing
- eCommerce integrations provide omni-channel payments
- No installation, maintenance, or setup fees
- 24/7 live support

### Faster Funding

REPAY offers omni-channel B2C and B2B integrated payment solutions for every business. REPAY is a gateway and processor that is trusted by thousands of merchants daily to process payments. If you do not understand your bill, we will educate you on how you are currently priced.

| PCI/DSS Compliant | Dedicated Training | Tokenized Credit Card Data | Partner-centric Approach |

Our payment solutions enable customers to benefit from multiple payment methods, Level 3 discounted rates for B2B transactions, increased cash flow with online payment portal capabilities, and seamless integration to help customers save time and money. REPAY is seamlessly integrated with multiple leading ERP, eCommerce, CRM, POS, and Mobile applications.

## REPAY Vault

The REPAY Vault is seamlessly integrated within the Sage 100 solution, allowing you to store customer payment credentials off of your own server for future use. REPAY Vault is a PCI/DSS compliant gateway with multiple reporting tools for reconciliation. Use our tokenized protection and data encryption to further enhance your security.

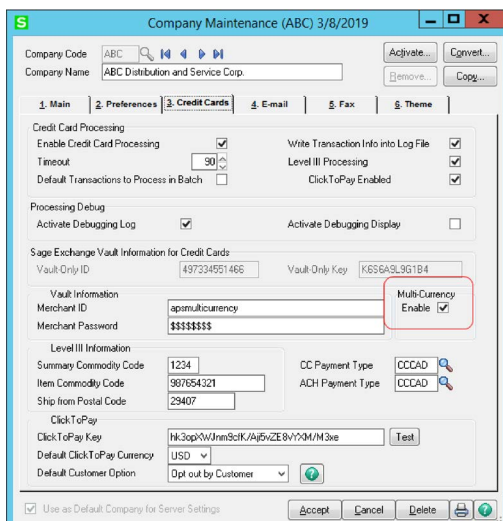

## Level 3 B2B Rates

Level 3 processing allows you to receive discounted rates on Visa® and Mastercard® B2B transactions. Level 3 transactions use lower interchange rates than Level 1 and Level 2 transactions. Merchants wanting to receive Level 3 processing rates must be on an Interchange Plus Pricing plan. The Sage 100 integration from REPAY automatically sends the required data to ensure maximum cost savings for B2B transactions.

## ClickToPay

ClickToPay is an integrated online payment portal that offers a simple and secure way to have invoices paid directly from Sage 100. Simply send a copy of the invoice or sales order via email. The customer opens the email and selects their preferred payment method - either credit card or ACH. ClickToPay allows customers to create a profile and save card or bank account information on file for future payments.

## Global Payments for Sage 100

Multi-currency was developed by DSD for Sage 100 for international and multinational companies that transact business in multiple currencies. The latest version of REPAY ClicktoPay supports true multi-currency processing with C/X Multi-Currency (CUMC). You will have one gateway account to handle multiple merchant accounts to streamline reconciliation. When DSD Multi-currency is installed, you will select the Multi-currency enabled box in Company Maintenance. REPAY will specify the gateway processor to use for the currency. By doing this, one Sage 100 company can correctly process multiple currencies in the most cost-effective method possible by using a separate processor for each currency.
