

Integrated Payment Solutions for One-Time Payments

Modern payment technology from REPAY drives a fully digital customer experience.

Integrated directly to the Encompass[®] loan servicing platform, REPAY's digital payment tools support more efficient ways to pay without the hassle of paper checks.

As experts in loan origination, we understand what it takes to assist borrowers with their interim loan payments. That's why we offer solutions that are customizable to meet your unique needs.

We automate manual paper processes to simplify the way your borrowers pay and streamline your day-to-day operations so you can focus on generating more loans.

Omni-Channel Payment Capabilities

Replace paper checks with digital payment options, such as ACH and debit cards, to increase payment efficiency and reduce exceptions. Through our secure electronic channels they pay the way easiest for them 24/7/365, while reducing manual effort for you.
