Worry-Free Patient Payments

BillingTree's convenient, secure, and reliable PayrazRx platform supports electronic invoice delivery and offers a user-friendly payment experience that increases patient satisfaction.

Patients can make pharmacy-related payments anytime, anywhere using their preferred method. They can conveniently log into PayrazRx to review and pay statements or quickly pay as guests.

When it's easier to pay, you're more likely to get paid on time.

Streamlining payments through your core system provides both you and your staff immediate time and cost savings which they can put towards other priority initiatives.

- Collect more payments
- Decrease days sales outstanding (DSO)
- Increase patient satisfaction
- Automate payment acceptance workflow
- Reduce the number of paper statements mailed

Entries across all locations and payment channels are automatically reported within PayrazRx where they can be easily reconciled to your core system and proper bank account. It's never been easier to manage payments and save your office time and effort.

Comprehensive reporting tools for better payment and activity tracking

Automatic updates to cards on file with Account Updater for fewer declines

HIPAA and PCI-DSS compliant for secure processing

Email reminders to payees for timely payment

Always available U.S.-based support

Simplify the patient payment experience today!
