

C-me Support Solutions:

Dashboard

This powerful and secure interface will enable you to gain complete autonomy over the process of producing and managing profiles, creating team wheels, memorable visuals and data analytics. With a dashboard you can:

- Have reports delivered direct, as PDFs in less than a minute and see a live feed of report completions
- Create and edit your own team wheels at no additional cost
- Regenerate into other report types if they are required
- Access additional visuals for teams –total team balance as a bar graph, top colours vs ‘high’ colours and radar graph options.
- See top colours of users at a glance.
- Resend report PDFs on demand and track live credit total
- Access unlimited Team wheels and generate ‘C’ at no extra cost
- Incur no ongoing maintenance fees

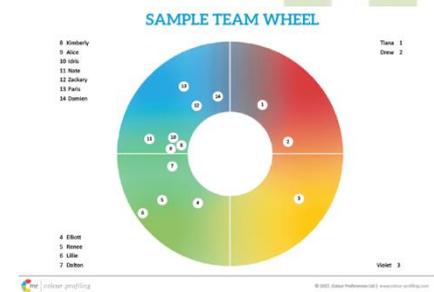

Personalised ‘C’:

The C-me personalised ‘C’ helps to secure the embedding of colour profiling language and application across a company because it is a quick and simple overview of an individual’s colour preference at a glance. It crosses language barriers giving a clear digital shorthand for personal style that is none the less individual. C’s will be generated as jpeg’s for every person who completes a report. This will be available at the same time as a profile is completed.

C-me Team wheel:

Team wheels provide powerful yet simple visual aids. Each team member is plotted on our colour wheel to show distribution of preference. This is a dynamic tool which helps team members value others preferences and begin to think about navigating different styles.

Own Branding:

C-me can add your company logo on both your reports and registration page. Own branding increasing ownership and responsiveness within an organisation.
