C-me For Education

*“Personal reports
that bring
lasting change
to you, your Staff
and your Pupils”*

Why C-me?

C-me is a low cost, high value behavioural profiling tool that is visual, easy to use and memorable. We help you, your Staff and Pupils, understand themselves and one another better, leading to flourishing relationships, improved wellbeing, and character formation.

How it works

By answering a series of questions that take under 10 minutes to complete, a bespoke report will be generated that helps shed light on preferred behaviours – including strengths, development areas and preferred communication style. Each report uses the colours Red, Yellow, Green and Blue to aid understanding of these behaviours in a simple, visual and memorable way.

Try it for yourself

In order to see first-hand the value that C-me can bring to your school, why not complete a questionnaire now and receive your profile with our compliments?

Simply scan this code below with your phone camera and follow the link:

What people say

"I love the idea of every child in the country having a C-me report as it would enable teachers to teach to each child's colour preference and get away from "grey education"

Lord Michael Hastings

"I have learned my strengths and things I need to work on. I have learned how I differ to other people"

Pupil, Beechen Cliff School

"Working with C-me has given us a language to use that is clear and simple. Their staff are friendly and fun as well as being professional and perceptive. I would highly recommend using them"

Julian Dutnall - Head Teacher, Francis Bardsley Academy

"C-me's interactive workshops have helped us explore in detail with leaders what their profile means in practice in the day to day leading of teams within schools... Using C-me has led to increased productivity in meetings and more fruitful relationships between leaders"

Sophie Francis - Deputy Head Teacher, Wellsway School

"C-me helps reinforce that there are certain qualities that do not always appear as valued and this gives all people permission to build on their strengths rather than try to be what they 'think; is expected of them"

Isobel George - Assistant Head Teacher, Backwell School
