

Product Owner

Do you believe finance can be something more meaningful than just a bunch of greedy wolves fooling around with others' money until a crisis happens? Would you like to build a world where everyone can access a user-friendly tool to grow their money fairly and according to their needs? Do you have what it takes for that? Great, because Gambit is currently recruiting an Product Owner as part of the innovation team!

Gambit is currently at a turning point in its technological development, and is planning an important investment in its technological stack, both from a technical as a functional point of view.

As Product Owner you will take a leading role in the definition and roll out of Gambit's product roadmap. You will join a multi-disciplinary team and will be in charge of specifying the functionalities of the tool, as well the technical and architectural choices that come with it. You also take part in the products roadmap definition.

We are looking for a Product Owner who will, as key member in the innovation team, define the future of Gambit's technology, ranging from the roadmap, and architectural design, to the more detailed specification of the backlog and its roll-out.

Tasks

- Setup – together with the innovation team – the functional and technical roadmap of the Gambit platform.
- Collaborate closely with the technical architects to build and maintain solid blueprint of the target architecture of the Gambit Platform.
- Determine the scope and define backlog items (epics/features/user stories) that will drive the roadmap and, later on, the development squad.
- Translate backlog items and requirements into functional specifications, or delegate and coordinate of these tasks to colleague business analysts.
- Develop and maintain an appropriately prioritized backlog of user stories for implementation.

ABOUT GAMBIT

Gambit Financial Solutions is a B2B WealthTech company, specialised in digital investment technology for financial institutions, helping investors and financial advisors making better decisions on their savings and investments. This includes selfcare solutions (robo-advisory), as solutions guiding the financial advisor during a face-to-face advice interview. Our customers are retail banks, private banks, digital banks, asset managers and insurance companies in continental Europe.

Gambit launched its own B2C robo advisor (Birdee.co), operating from Luxembourg and servicing the European market. In 2021, Birdee launched a B2B2C service called "Birdee as a Service" allowing third parties to integrate wealth management services into their ecosystem using API's.

In 2017, BNP Paribas Asset Management took a majority stake into Gambit, which has been extended into a full ownership in 2021.

- Solve product-related problems and make decisions based on trade-off analysis to stay on track towards business deliverable commitments.
- Act as an ambassador for the product internally and externally, and as the primary contact for queries related to the product.
- As part of the innovation team, you will also be expected to follow up market trends, competitors, best practices to complement the roadmap for the product
- Reactivity and adaptability will be part of your daily challenges, as the Fintech environment is always on the move.

Required Knowledge, Skills & Abilities

Education & Experience

- Bachelor or Master's degree, preferably in the field of Finance, banking, or a computer science or technology field such as engineering,
- At least 7 years of experience in the field of software, eCommerce, XYZ-technology, marketing or product management
- A Product Management certification is an advantage

Hard Skills

- Strong analytical skills, with the ability to quickly understand and resolve issues, in the context of IT-oriented projects
- Knowledge of banking and finance topics
- Knowledge of business process modeling techniques such as BPMN
- Deep understanding and experience of Agile/Scrum methodologies
- Knowledge of the latest technical best-practices including cloud and containerisation, micro-service architecture and DevOps.
- Experience in SQL is a plus

Soft Skills

- Team-player and team-oriented attitude
- Creative and strategic thinking
- Entrepreneurial and leader mentality
- Analytical and problem-solving skills
- Client oriented mindset
- Stress resilient
- Organisational and time management skills
- Solution-driven: Whatever it takes!
- Resourceful even in uncomfortable situations

Communication

- Fluent in FR & EN (NL is a plus)
- Good communication skills written and oral

Our Offer

- **Working in an inspiring Fintech spirit:** A dedicated team awaits you to join them in challenging the established rules and creating a new financial environment that would be simpler and more transparent for everybody.
- **Fast personal developments:** As a Fintech, everybody on board has a crucial role to play and will be quickly granted with responsibilities. This is a great opportunity for you to challenge your skills and talents without having to wait several years to get to a position with decisional power.
- **Collaboration with young and dynamic talents:** Who better than millennials could build solutions for millennials (or rather anyone with the same progressive mindset)? That's why we have chosen to trust young talents who are craving for innovation, to build products they would like to use.
- **A people-oriented culture:** At Gambit, we will not ask you to wear a tie nor grey suits. If you want to listen to music, it's fine! We will just ask you to be passionate about your job, and to love sharing your expertise. In addition, when things get a bit heated, enjoy our Fridays' Happy Hours with a foosball and great (Belgian!) beers.

Work location

HQ: 36 Rue de Mulhouse, 4020 Liège
Offices in Brussels, Luxembourg and Paris.

Gambit has a 3/5 work-from-home policy
