1. DESCRIPTION OF BUSINESS

D-BOX Technologies Inc. [“D-BOX” or the “Corporation”], incorporated under the *Canada Business Corporations Act*, is domiciled at 2172 de la Province Street, Longueuil, Québec, Canada.

D-BOX designs, manufactures and commercializes cutting-edge motion systems intended for the entertainment and the simulation and training markets. This unique and patented technology uses motion effects specifically programmed for each visual content which are sent to a motion system integrated into either a platform, a seat or any other product. The resulting motion is perfectly synchronized with the on-screen action, thus creating an unparalleled realistic immersive experience.

The Corporation evaluates its operating results and allocates resources on the basis of its one operating segment which is the design, manufacture and sale of cutting-edge motion systems. Based on the nature of the Corporation’s clients, two significant markets have been identified: the entertainment and the simulation and training markets. The entertainment market comprises motion systems installed in commercial theatres, home entertainment consumer products, particularly video games and home theatres, and themed entertainment motion systems. The simulation and training market consists of products for industrial simulators, industrial training and other applications.

The unaudited interim condensed consolidated financial statements were approved by the Corporation’s Board of Directors on February 12, 2018.

2. BASIS OF PRESENTATION

The interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standards 34 [“IAS 34”], *Interim Financial Reporting,* and accordingly, they are interim condensed consolidated financial statements because they do not include all disclosures required under International Financial Reporting Standards [“IFRS”] for annual consolidated financial statements. Thus, these interim condensed consolidated financial statements should be read in conjunction with the March 31, 2017 annual consolidated financial statements which include the same accounting policies used in the preparation of these financial statements.

Certain prior period comparative figures have been reclassified to conform to current period presentation.

2.1 New Accounting Pronouncements

Standards issued but not yet effective

- IFRS 9, *Financial Instruments*, is required to be applied retrospectively for annual periods beginning on or after January 1, 2018, with early adoption permitted. IFRS 9 simplifies the measurement and classification of financial assets by reducing the number of measurement categories in IAS 39, *Financial Instruments: Recognition and Measurement*. The new standard also provides for a fair value option in the designation of a non-derivative financial liability and its related classification and measurement, as well as for a new hedge accounting model more closely aligned with risk management activities undertaken by entities. The Corporation is currently assessing the impact of the adoption of this pronouncement on its consolidated financial statements.

- IFRS 15, *Revenue from Contracts with Customers*, is required to be applied retrospectively for annual periods beginning on or after January 1, 2018, with early adoption permitted. IFRS 15 specifies how and when an entity will recognize revenue as well as requiring such entities to provide users of financial statements with more informative disclosures. The standard provides a single, principles based five-step model to be applied to all contracts with customers.

  For the Corporation, the standard comes into effect on April 1, 2018, and as a result, IFRS 15 will be adopted in the first quarter of fiscal year 2019. The majority of the revenues of the Corporation are generated from the sales of motion systems to clients of entertainment market and simulation and training market. The Corporation anticipates that the allocation of the transaction price to future performance obligations in certain contracts will change. This change will result in the recognition of different amounts of revenue for each performance obligation and will affect the timing of such revenue recognition. The Corporation is also assessing whether there is a significant financing component on contracts where timing of cash receipts and revenue recognition differ substantially. The Corporation will provide further updates during the course of fiscal year 2018 as it advances in its assessment.

- IFRS 16, *Leases,* is required to be applied retrospectively for annual periods beginning on or after January 1, 2019, with early adoption permitted provided that the IFRS 15 has been applied or is applied at the same time as IFRS 16. IFRS 16 sets out the new principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract. The standard provides lessees with a single accounting model for all leases, with certain exemptions. In particular, lessees will be required to report most leases on their balance sheets by recognizing right-of-use assets and related financial liabilities. The Corporation is currently assessing the impact of the adoption of this pronouncement on its consolidated financial statements.

[Amounts are in thousands of Canadian dollars, except share, option, warrant, share unit, per-share and per-option amounts]

3. INVENTORIES

	December 31, 2017 $	March 31, 2017 $
Parts and components	**5,225**	6,050
Finished goods	**2,113**	2,284
	7,338	8,334

4. SHARE-BASED COMPENSATION LIABILITY

In June 2016, a restricted share unit plan [“RSU”] and a deferred share unit plan [“DSU”] were adopted by the Board of Directors. The liability resulting from these share unit plans will be measured at fair value of the underlying share price for each unit at the grant date and measured again at the end of each reporting period and at settlement date. Any change in fair value will be recognized in the consolidated statements of net income (loss) and other comprehensive income (loss).

	2017		2016	
	RSU Share Unit	DSU Share Unit	RSU Share Unit	DSU Share Unit
Balance as at March 31	**530,000**	**560,000**	—	—
Issued	—	—	550,000	560,000
Redeemed for cash	**(60,000)**	**(160,000)**	(20,000)	—
Balance as at December 31	**470,000**	**400,000**	530,000	560,000
Units exercisable at end of period	—	**400,000**	—	440,000

The RSU share units will vest three years after grant date and will be redeemed for cash or shares at vesting date or under certain conditions. The unvested DSU share units will vest 12 months after grant date. These DSU share units will be redeemed for cash or shares upon cessation of participant service for all vested units.

For the quarter and the nine-month period ended December 31, 2017, the share-based compensation credited to income amounted respectively to $12 and $56. [A credit to income of $31 and an expense charged to income of $297 for the quarter and nine-month period ended December 31, 2016]. An amount of $120 was accounted for in accounts payable and accrued liabilities for the current portion and $70 was accounted for the non-current portion under share-based compensation liability [$199 and $51 as at March 31, 2017].

[Amounts are in thousands of Canadian dollars, except share, option, warrant, share unit, per-share and per-option amounts]

5. LONG-TERM DEBT

	December 31, 2017 $	March 31, 2017 $
Loan	**4,656**	4,549

On December 31, 2017, the effective interest rate of long-term debt was 10.7% [10.7% in 2016] and the Corporation was in compliance with all debt covenants. The loan matures on February 5, 2020.

During the quarter and the nine-month period ended December 31, 2017, the interest expense on long-term debt charged to income amounted to respectively $125 and $369, including an amount of $36 and $107 related to the accretion of interest [$120 and $357 including and amount of $33 and $96 accounted for as an accretion expense for the quarter and the nine-month period ended December 31, 2016].

6. EQUITY

6.1 *Share Capital*

Class A common shares of the Corporation for the nine-month periods ended December 31, 2017 and 2016 are summarized in the following table:

	2017		2016	
	#	$	#	$
Balance as at March 31	**175,950,573**	**62,762**	174,928,906	62,254
Shares issued on exercise of options	**—**	**—**	660,000	349
Balance as at December 31	**175,950,573**	**62,762**	175,588,906	62,603

Period ended December 31, 2016

During the period, the Corporation issued 660,000 Class A common shares for a total cash consideration of $201 on exercise of stock options. An amount of $148, representing the initial fair value of the stock options, was credited to share capital and deducted from the share-based payments reserve.

[Amounts are in thousands of Canadian dollars, except share, option, warrant, share unit, per-share and per-option amounts]

6.2 Stock Option Plan

Changes in the Corporation's stock options for the nine-month periods ended December 31, 2017 and 2016 are summarized in the following table:

	2017		2016	
	Number	Weighted average exercise price $	Number	Weighted average exercise price $
Balance as at March 31	**13,895,845**	**0.37**	15,126,845	0.37
Options granted	**1,500,755**	**0.34**	1,000,000	0.58
Options exercised	—	—	(660,000)	0.30
Options cancelled	**(133,333)**	**0.34**	(353,333)	0.55
Balance as at December 31	**15,263,267**	**0.37**	15,113,512	0.38
Options exercisable at end of period	**13,215,845**	**0.37**	13,931,846	0.38

The fair value for options granted during the nine-month periods ended December 31, 2017 and 2016 was estimated at the grant date using the Black-Scholes option pricing model based on the following assumptions: weighted average interest rate 1.39% [1.05% in 2016]; no dividend; 69.5% weighted average volatility factor of the expected market price for the Corporation's shares [72.9% in 2016]; 4.4% weighted average forfeiture rate [3.7% in 2016]; $0.33 weighted average share price [$0.58 in 2016] and an expected weighted average option life of 6.4 years [6.4 years in 2016]. The expected life of stock options is based on historical data and is not necessarily indicative of exercise patterns that might occur. The expected volatility reflects the assumption that historical volatility over a term similar to the option term is indicative of future trends, which might not be the case.

The weighted average of the estimated fair values at the grant date of the options awarded during the period is $0.21 per option [$0.38 per option in 2016], amortized through income (loss) over the vesting periods of the options.

For the quarter and the nine-month period ended December 31, 2017, the share-based compensation expense charged to income (loss) amounted to $70 and $206 [$32 and $94 for the quarter and the nine-month period ended December 31, 2016], with a corresponding amount recognized under share-based payments reserve.

[Amounts are in thousands of Canadian dollars, except share, option, warrant, share unit, per-share and per-option amounts]

6.3 Warrants

Warrants for the nine-month periods ended December 31, 2017 and 2016 are summarized in the following table:

	2017		2016	
	Number #	Exercise Price $	Number #	Exercise Price $
Expiring on June 18, 2017 (a)	—	—	8,333,333	0.60
Expiring on August 5, 2019	**4,500,000**	**0.50**	4,500,000	0.50
Expiring on December 22, 2022	**2,000,000**	**(b)**	2,000,000	**(b)**
Balance	**6,500,000**		14,833,333	

(a) On June 18, 2017, 8,333,333 warrants expired. An amount of $431, representing the initial fair value of the warrants, was credited to deficit and deducted from the warrants reserve.

(b) Exercise price corresponds to the volume weighted average price of the Class A common shares on the Toronto Stock Exchange for the five trading days prior to the exercise date of the warrants. No warrants were vested as at December 31, 2017.

7. SUPPLEMENTARY INFORMATION ON THE UNAUDITED INTERIM CONSOLIDATED STATEMENTS OF NET INCOME (LOSS) AND OTHER COMPREHENSIVE INCOME (LOSS)

7.1 Cost of Goods Sold Excluding Amortization

The key components of costs of goods sold excluding amortization of property and equipment are detailed as follows for the quarters and nine-month periods ended December 31:

	Third Quarter		Nine Months	
	2017 $	2016 $	2017 $	2016 $
Cost of parts and components	**4,360**	2,164	**9,847**	7,510
